Paper Sizes and Orientation

With so many different sizes and shapes of printed material now available, and so many holders to display them, we hope that the following diagrams and dimensions will assist you in working out the size and type of holder you require.

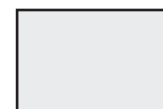

Portrait Style

A0	1188 mm (H) x 840 mm (W)
A1	840 mm (H) x 594 mm (W)
A2	594 mm (H) x 420 mm (W)
A3	420 mm (H) x 297 mm (W)
A4	297 mm (H) x 210 mm (W)
A5	210 mm (H) x 148 mm (W)
A6	148 mm (H) x 105 mm (W)
A7	105 mm (H) x 74 mm (W)
DLE*	210 mm (H) x 100 mm (W)

Landscape Style

A0	840 mm (H) x 1188 mm (W)
A1	594 mm (H) x 840 mm (W)
A2	420 mm (H) x 594 mm (W)
A3	297 mm (H) x 420 mm (W)
A4	210 mm (H) x 297 mm (W)
A5	148 mm (H) x 210 mm (W)
A6	105 mm (H) x 148 mm (W)
A7	74 mm (H) x 105 mm (W)
DLE*	100 mm (H) x 210 mm (W)

* DLE also known as 'Tri-fold A4' or 'Leaflet size'

Measurements in this catalogue are for the total outside dimensions of the unit (not the inside dimensions) unless stated otherwise.

1. Premium Range Brochure Holders

High quality, economical, injection moulded brochure holders manufactured from durable, crystal clear plastic in attractive and contemporary designs. Available in single pocket and multi-pocket and with optional business card holder(s). (see pages 8-15)

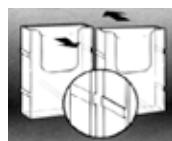

2. Flat Back, Linking Brochure Holders, Wall Mounting

Extremely versatile flat back brochure holders that can be used individually, or can be linked together with any size in the range to make an attractive wall display. Each unit is supplied with pre-drilled holes but can also be mounted using double sided tape, Velcro™, magnets, or slat wall brackets, which means they can be attached to virtually any type of wall with ease. (see pages 8-13)

Linking brochure holders can be linked side by side to create a multipurpose wall display.

3. Lit Loc Brochure Holders

Lit Loc is the most versatile brochure display system in the Deflecto range. These brochure holders link together side-by-side (similar to our flat back wall mounting series) and also link 'front-to-back' making it possible to create a 'water fall' effect with multiple tiers of brochure holders. They can then be either wall mounted, or free standing and are also available in a range of easel floor stands. (see pages 16-20)

4. Manhattan Brochure Holders

These brochure holders have an innovative design that combines clear, injection moulded brochure pockets with an elegant, metallic-look, curved surround that frames the brochures. The modern, stylish and eye-catching display also incorporates business card holders at the front. Manhattan brochure holders are available in 3-tier A4 and 3-tier DLE options with frames in either black or silver (see pages 9 & 11)

5. Extra Capacity Brochure Holders

With twice the capacity of regular brochure holders, these extra capacity holders are ideal for use in high traffic areas, such as trade shows, where refilling can be a nuisance. Removable dividers can be used to convert extra capacity brochure holders into standard capacity, 2-tier multi-pocket brochure holders. Available in free-standing and wall mounting options. (see pages 8, 10 & 12)

6. Stand Tall Unbreakable, Linking Brochure Holders

Designed for the busiest of offices or display areas, Stand Tall brochure holders are durable, attractive, practical and cost-effective. Made from high impact polycarbonate, Stand Tall brochure holders are guaranteed unbreakable under normal use. Each unit has a high tension spring action tongue that snaps back to keep the literature upright and a stair-step design in the base to prevent it from sliding down. Together these features ensure that leaflets and brochures are displayed perfectly and look good at all times. Stand Tall literature racks are available individually for wall mounting or in a range of attractive and functional display stands, including wall racks, rotating stands and easel units. (see pages 8, 10, 12, 21 & 22)

7. Chrome Wire Brochure Holders and Magazine Racks

Manufactured using high quality steel, with a polished chrome finish, these wire brochure holders are a simple yet stylish alternative to plastic holders. Available in single pocket free standing and also as multi-pocket display stands, including wall racks and fixed and rotating floor stands. A4 pockets have the added advantage of being wide enough to accommodate magazines. (see page 23)

8. Sustainable Office, Recycled Brochure Holders

These injection moulded, Premium Range brochure holders are a high quality, environmentally friendly alternative for brochure display. Manufactured using 60% recycled plastic in semi-gloss, black finish and available in single pocket and multi-pocket and with optional business card holder(s). (see pages 8-11)

9. Deluxe Brochure Holders

With sleek black sides and clear front panels, these attractive and durable, multi-pocket, acrylic literature holders have a modern, stylish look that will complement any office environment. Deluxe brochure holders can stand on a desk/countertop, or can be wall mounted. (see page 11)

10. Budget Brochure Holders

A simple but effective range of plastic brochure holders manufactured to the same high quality standards but available at budget prices. (see pages 8, 10 & 12)

Installation Guide

Side-by-Side Linking

Align the dovetail features on the side of the brochure holders and slide the right hand brochure holder backwards to link together.

Multi-Tier Linking

Align the brochure holders one in front of the other so that the linking clips on the back of the front brochure holder are directly above the guide lines on the front of the rear brochure holder. Slide the front brochure holder firmly downwards to link together.

Please note: There are two front-to-back linking positions. The upper linking position (Option 1) is designed for free-standing displays but can also be used for wall mounting displays where space is limited. The lower linking position (Option 2) is designed for wall mounting displays only.

Wall Mounting

Attach the Aluminium Wall Mounting Bar to the wall, ensuring that it is horizontal. Link brochure holders together side-by-side as required and clip onto the wall bar. Additional rows of brochure holders can be linked to the front of rows already in place.

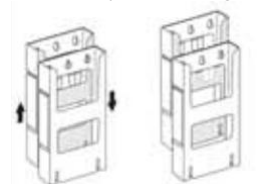

Please note : For displays with 4 or more rows it is recommended that the small Lit Loc Base is attached to the back of the 4th, 5th or 6th row to space the brochure holders out from the wall and to provide additional support.

Clip-on Base/Spacer Installation

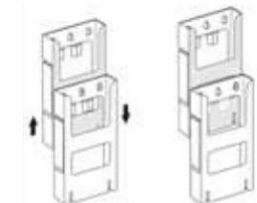

Align the brochure holder and base so that the lugs on the base fit into the keyhole slots on the brochure holder. Slide the base sideways to lock in place.

Side-by-Side Linking

Option 1 : Upper Linking

Option 2 : Lower Linking

2-Tier DLE with Small Base

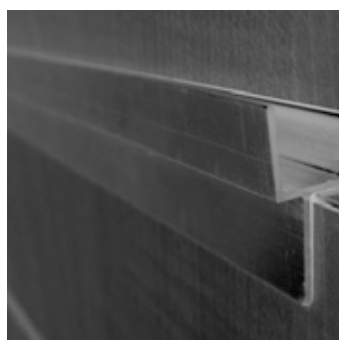

ALUMINIUM WALL MOUNTING BAR

- Screw fixing holes drilled on request
- Custom lengths available as required

CHROME WIRE LITERATURE HOLDERS

- Constructed from high quality steel with a polished chrome finish
- The range includes both single-tier and multi-tier options with wall mount, desktop and floor standing applications
- Desktop models are equipped with non-slip rubber feet and floor standing models have a black powder-coated pole and base
- A4 size pockets are wider than standard, which means they can be used to store/display magazines
- Cost-effective alternative to plastic holders
- A great way to display all your literature in one place using minimal counter, wall, or floor space

EXTRA-WIDE PROFILE (35MM)

Manhattan Extra-Wide profile snap-frames are ideal in situations where a good looking, sturdy frame is required and/or where an MDF backing panel might not be suitable.

- 1mm thick gloss cover sheet, giving a flatter surface in front of the image and reduced image distortion.
- Extra strong spring clips.

MANHATTAN 'HIGH RISE' POLE & BASE

The Manhattan 'High Rise' system is a versatile, free-standing pole and base assembly for use with Manhattan snap frames.

- Sturdy aluminium pole in silver-grey finish, with flattened oval cross-section, 80mm x 40mm, 2 metres high, with cap
- Weighted steel base with matte silver-grey painted finish
- End to end grooves in the pole allow for easy adjustment of frame height
- Single, double or even four-sided display. Multiple frames per side, if required
- Snap frames purchased separately - we recommend using Manhattan Wide or Extra-wide profile frames

MAGNETIC COVER FRAMES

These smart, slimline aluminium frames are a simple but elegant display solution that can be used as an alternative to snap frames. They have a PET magnetic cover sheet, available in either silver or black border, and have a corflute backing panel. A suction cup is included for easy removal of the cover sheet.

- Available in sizes from A0 to A4 and can be mounted in portrait or landscape format.
- Suitable for both indoor and outdoor use (the media should be waterproof when used outside).
- Mounting hardware included.
